DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

1) A liposome modified by a sugar chain bonded to the membrane of the liposome (claim 1)

2) A liposome modified by a sugar chain bonded to the membrane of the liposome and further hydrophilized by binding a hydrophilic compound (claim 16)

3) A liposome whose membrane is hydrophilized and which has no sugar chain bonded (claim 42)

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. The claims are deemed to correspond to the species listed above in the following manner:

- 1) 1-15, 27-41, 65-71
- 2) 16-41, 65-71
- 3) 42-64, 72-78

3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: They are different types of liposomes.

If applicants elect either species 2 or 3, they must further elect either hydroxyl containing hydrophilic group (OH) or hydroxyl and amino group (OH and NH₂) containing moieties (for example as in claim 22 or as in claims 23-24).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
